## **What can be cooler than speaking a new language?**

By Lorena Alvarez

I love the new sign language classes. I'm friends with Lucas and Martin. We are part of Barranquilla's comic club! I have been part of this club for 2 years now. We meet on Saturdays. We have gone to comic events together, and we have watched some movies together, too.

I love texting Lucas and Martin about new comics. But I always wanted to be part of their

conversations. They know a lot about cool comics, and they always know about new ones before me.

Since I started taking sign language classes, I have learned words to tell them what I feel about some comics right away. They look very happy about it. I also have seen teachers talking to them more often. It has been a great change!

## Learning is so much better now!

By Andrea Gonzalez

I think that the school changes have made my life easier. I have always had problems in class because I cannot hear my teachers explaining. I wanted to participate, but it was boring to read just from the textbook all the time! I like to read, but I wanted a little change. Now that the library has added the multimedia collection, I can watch videos with subtitles or do other activities! It's a great improvement!

My teacher has me watch video explanations with subtitles, so I can see

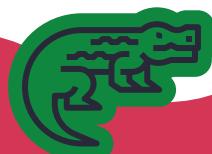

different scientific processes like cell multiplication. I can also see graphs moving and answer questions on the computer. There are interactive games and tests I can use to check if I understand, too.

Sometimes, I can explain it to my classmates. Now that everyone is taking sign language classes, I can talk to more people, too. These two changes have made me the happiest. I think that the school has changed for the better!
